16	LCBS (London Country Bus Services) Vehicles
33	Bus Company Vehicles
300	Other Companies

IntroductionAbout this document

This document contains a detailed list of the service vehicles operated by London Transport, its successors and associated companies. It is one of several that take their information from the LTSV website (www.ltsv.com) and is updated to 1st March 2015. The other documents can also be downloaded from the LTSV website and include the following:

- **Part 1** gives a basic list of all known service vehicles
- **Part 3** contains the captioned photographs that have been published on the website (broken down into sections due to size)
- **Part 4** has a list of service vehicle locations and also the news and forum sections from the website

LTSV has accumulated a large amount of information over the years. By making these documents available for download it is hoped that the content can be preserved even if something happens to me or my website.

This document will be re-issued perhaps once or twice a year with updated content. However, for the latest information, please refer to www.ltsv.com.

Whilst part 1 lists the basic details of all vehicles in a tabular format, this part gives more detail and hence uses a single table for each vehicle. The additional information comprises:

- Chassis and body numbers (where known).
- Supplier and disposal details (where known).
- Notes. *This includes items added by contributors to LTSV*
- History. *This will eventually cover the allocations, transfers and other changes that affected each vehicle*

The tables also include a small photograph, where one has been published on LTSV. Note that these photos are included as a guide only and are of low resolution. Larger copies of the photos can be found in the part 3 documents (refer to the number shown underneath each photo to locate it) or on the LTSV website.

Not included are additional photos of each vehicle (except in a few cases where the appearance changed markedly), the licensing dates or the sightings reported. All of these can be found on the website.

The addition of vehicle histories is an ongoing task at present, and many vehicles do not yet have any (or complete) entries. Coverage of the period 1946 to 1982 is virtually complete, other periods are in progress. The sources of the allocation information are either official documents or observations. The former sometimes presents anomalies, such as a vehicle being listed as moving from A to B and then later from C to D. Such instances are notated as 'non-contiguous'. There are also entries that may appear to be duplicated. For example, if two official lists dated 01/01/1961 and 01/01/1962 both showed a vehicle as being allocated to X, both will appear.

If you find any errors in this document, or have any additional information, please get in touch using e-mail tom@ltsv.com.

Thomas Young, Abbey Wood, March 2015

Former Buses

	Number	NS1653	Registration	PE1725

 Photo 4256 - Derek Everson	Number	21F	Registration	NPK93R
	Type	Ford D0910 Dropside Lorry		
	Operator	LCBS	Livery	Green
	Date in	08/1976		
	Date Out	05/1983		
	Notes	Same comments regarding NBK 94R/NPK 94R apply to this one too - NBK 93R was a red Capri 1600. These two are shown as NPK 93/4R in the 1980 LCBS fleetbook I have.. Last licensed as red. apparently sold to Rennies of Dunfermline but soon sold on again to an unknown owner.		
	History			

	Number	22F	Registration	NPK94R
	Type	Ford D0910 Dropside Lorry		
	Operator	LCBS	Livery	Green
	Date in	08/1976		
	Date Out	05/1983		
	Notes	Last licensed as blue . Photo at http://www.flickr.com/photos/16677680@N04/5501735673/ . NBK 94R shows on Cartell/DVLA as a blue Ford Escort 1100L. Would suggest this one should be NPK 94R, shown as a Ford of unknown type with a diesel engine - the NPK reg fits with LCBS buses.. sold to Rennies of Dunfermline - photo at http://www.flickr.com/photos/david_love/5800932621/ .

	Operator	Arriva Shires	Livery	Green/Green
	Date in	14/04/2014		
	Date Out	-		
	Notes	A report of this vehicle would be useful for two reasons. Firstly, the livery is shown on DVLA as being black, but it is most likely been repainted into Arriva corporate livery, or the new 2-tone green Green Line advertising livery. Secondly, it is listed by Arriva as carrying fleetnumber CF100, while similar S832CGX is listed as CF99, but the latter actually carries CF100.. I have found two photos of this vehicle on Flickr. While these resolve the situation with the livery (it has a revised Green Line green/green livery with a diagonal divide between the colours) they do not answer the fleetnumber question. https://www.flickr.com/photos/125022155@N03/15590270299/ taken on 12th November 2014 shows it with fleetnumber CF99, while https://www.flickr.com/photos/110507185@N07/16390214855/ shows it with number CF100. Unfortunately, the date of the second photograph is given as 14th January 2001! Assuming the latter picture was taken after the first, could it be that the transposed numbers were spotted and rectified? In which case, we really need a recent photo of S832CGX to confirm that it is now CF99.....		
	History			

	Number	CF106	Registration	S811CGX
	Type	LTI TX1 Silver Auto Taxi

	Number		Registration	LR52LXM
	Type	Volkswagen Caddy TDI Van		
	Operator	Metroline	Livery	Green
	Date in	by04/2009		
	Date Out	by01/2012 to Reregistered 33LUG		
	Notes	Photograph at http://uncyclopedia.wikia.com/wiki/File:PBG.jpg (July 2007). From this photo, (which originally came from Matthew Wharmby's 'The London Bus Page' website), it shows, on the nearside front door, part of the Tara Support Services logo (which is a coat of arms). Along with its colour scheme being similar to Tara's own livery, it would suggest that this vehicle came second hand to Metroline from Tara sometime after 11th September 2004.. Photograph in 'The London Metrobus' (Ian Allan). No longer on DVLA.
